1. BA (Honours) in Contemporary Applied Art (Ceramics, Glass, Textiles) MT 820
2. BA (Honours) in Fine Art MT 821
3. BA (Honours) in Photography with New Media MT 822
4. BA (Honours) in Visual Communications MT 823

The portfolio is your opportunity to show what interests and excites you visually; it should show your ability and potential to engage in a challenging and creative contemporary art and design practice. If you have an inquisitive mind and want to explore your creativity, then the Crawford Degree Programmes are for you.

There is no 'standard' portfolio but these are indications of what will be looked for:

- Make it exciting so your portfolio reflects your interest and enthusiasm for the chosen course as a prospective art and design student
- Evidence of drawing and painting are essential and/or photography and video should be demonstrated through both observational and imaginative work.
- Don't leave out large scale or 3D work; however it is sufficient to present this by photographing the objects from a variety of view-points and including some indication of scale if possible.
- Sketchbooks and personal visual diaries are vital since they give an idea of how you inform yourself, how you generate ideas and your approach to researching and developing them.
- It is important to organise and present your portfolio clearly. Try to be selective, judge what best displays your interests, abilities and skills, then arrange it in a clear and coherent manner - don't put everything in. Remember we are looking for quality, not quantity.

Note: Portfolios for the BA in Visual Communications MT 823

should contain examples of any 'graphic design' projects you may have undertaken such as logos, event posters, CD covers, or packaging.

Note: Portfolios for BA in Photography in New Media MT 822

should contain images that demonstrate your photography and video skills. Show us that you have explored visual elements, e.g. composition, framing, space, light, colour, texture balance, hierarchy, lines and symmetry. As well as exploring visual themes and issues that interest you. Your sketchbooks should provide details of your visual research and how you created and edited your images. You can also include drawings, paintings, craftwork pieces and/or other digitally generated graphics, however, these are not vital if you do not have any.

Finally and most importantly, enjoy the process of creating your portfolio - it will be evident in the work. Be inventive, we enjoy seeing work that is individual and imaginative.
